Vision We hold that literacy is a fundamental human right, essential to the ability to improve one's quality of life. We work towards a vision of basic reading, writing, math, and cultural competency skills for any person who finds him or herself incarcerated in the Dane County Jail.

We believe in the life-serving value of self-expression and effective communication; we seek to build literacy skills alongside a sense of pride, competence, hope, self-worth, and joy.

The Jail Tutoring Project is supported by the Madison Area Jail Ministry, a non-profit organization that serves people in the Dane County Jail, their families and communities. The Jail Tutoring Project is not a program of Dane County.
